

Hawk-eagle 1st in captivity to be hatched, bred in Davao

By Gerardo Lacuna
Inquirer Staff Writer

DAVAO CITY— Since a previous bird-rehabbing center began working programs, but not used more intensively, the Philippine Eagle Foundation (PHEF) cannot be considered the only organization that has been successful in breeding a critically endangered species of bird in the Philippines.

Dr. Gerardo Lacuna, PHEF director, said the first Philippine hawk-eagle, *Pithecophaga jefferysi*, was hatched in a captive facility, but not raised in the PHEF's Davao City rehabilitation center in Davao City.

—*Gerardo Lacuna*

One and done is in breeding 'superhero' eagles, series and name of 'Ephraim,' the hawk eagle, was mother to 5 puppies

THE FIRST PHILIPPINE HAWK-EAGLE hatched in captivity at the Philippine Eagle Foundation in Davao City. It is one of the first birds of PHEF to be hatched in captivity. It is named 'Ephraim' because its vocal patterns are rapidly increasing. *Pithecophaga jefferysi* hawk eagle was mother to five single chicks born by the male eagle PHEF captured in Baguio.

Scrap special polls for Iggy's seat, Comelec urged

By Peter C. Alvarez

THE COMMISSION on Elections (Comelec) has urged the House of Representatives to scrap special elections for the seat of Representative Iggy Garcia, who was elected to the House in the 2010 general election. The commission said that the special election for Garcia's seat, which is scheduled for May 14, is not necessary because Garcia is still alive and eligible to run for re-election in the 2013 general election. The commission said that the special election is a waste of resources and that Garcia's seat should be vacated until the 2013 general election.

Representative Iggy Garcia.

Representative Garcia is the incumbent for the 1st district of Marikina City. He was elected to the House in the 2010 general election. He is currently serving his first term in the House.

The commission said that the special election for Garcia's seat is not necessary because Garcia is still alive and eligible to run for re-election in the 2013 general election. The commission said that the special election is a waste of resources and that Garcia's seat should be vacated until the 2013 general election.

The position is open to all areas of chemistry. The successful candidate will be expected to teach and conduct research in the field of chemistry. The University of Chicago is an equal opportunity institution. Minorities and women are encouraged to apply. Send curriculum vitae and references to: **Dr. J. H. Drenth, Department of Chemistry, 5301 South Ellis Avenue, Chicago, IL 60637.**

efforts to use these results to estimate program effects on the environment must be firm. The authors note that because of the small number of observations and the high correlation between the number of plants and the number of plants per county, the authors are unable to control for the number of plants per county. This is a limitation of the study.

COA questions Comelec-Smartmatic contract in 2010 poll

By The Press

THE COMMISSION ON ELECTROINFORMATICS (COE) has questioned the validity of the 2010 election contract between the Commission on Elections (Comelec) and the Smartmatic company, citing irregularities in the bidding process.

The Commission said that the bidding process for the 2010 election contract was irregular and that the Smartmatic company was not the lowest bidder.

The COE said that the bidding process was irregular because the Smartmatic company was not the lowest bidder and because the bidding process was not transparent.

The COE said that the bidding process was irregular because the Smartmatic company was not the lowest bidder and because the bidding process was not transparent.

GOVERN 

London, April 11 (AP)—
The government of Britain
has announced that it will
allow the sale of nuclear power
plants to private companies.
The move is part of a
broader effort to privatize
state-owned utilities and
other public services.
The government says the
move will help to raise funds
for the national debt and
improve the efficiency of
the power industry.

The Dan Green

London, April 15 (AP)—The British government has agreed to a plan to build a new bridge across the Firth of Forth, a body of water separating the city of Edinburgh from the rest of Scotland.

What we can get out of our coconuts

By David L. Phillips Jr. and Bill

It's the little-known facts about coconut products that make them so interesting. From the coconut oil used in hair care to the coconut water used in sports drinks, the coconut is a versatile fruit. In this special report, we'll explore the many uses of the coconut and how you can get the most out of it.

Plant a 6-month-old seedling

Coconut seedlings are available from many nurseries. They are easy to grow and can be planted in a pot or in the ground. The seedlings are usually 6 months old when they are sold.

Tap coconut water in 6 years

Coconut water can be tapped from a coconut tree in about 6 years. The water is collected from the coconut's natural cupule. It is a clear, sweet liquid that is rich in vitamins and minerals.

Harvest coconut water in 6 months

Coconut water can be harvested from a coconut tree in about 6 months. The water is collected from the coconut's natural cupule. It is a clear, sweet liquid that is rich in vitamins and minerals.

Use dried coconut oil in 3 months

Dried coconut oil can be used in many ways. It can be used in cooking, in hair care, and in skin care. It is a natural, healthy oil that is rich in vitamins and minerals.

Propagate with new coconut products

Coconut products can be used to propagate new coconut trees. This is a simple process that can be done at home. It is a great way to grow your own coconut trees.

TAPPING THE TREE OF LIFE FOR NATURAL-HEALING FOOD

BY DAVID L. PHILLIPS JR.

Coconut variety

Coconut varieties are classified by their oil content. The most common varieties are the Ceylon coconut, the West Indian coconut, and the Thai coconut.

Coconut	Oil content	Water content	Protein content
Ceylon	45%	40%	15%
West Indian	40%	45%	10%
Thai	40%	45%	10%

Coconut oil is a natural, healthy oil that is rich in vitamins and minerals. It can be used in many ways, including in cooking, in hair care, and in skin care.

Coconut water is a clear, sweet liquid that is rich in vitamins and minerals. It can be used in many ways, including in sports drinks, in hair care, and in skin care.

990AM For many OFWs, sending children home for college is a nightmare

Who will help the migrants?

Pulling Bicol up from poverty with coco fiber ropes

The story of Dr. Justino Arboleda

By Danilo Laguarda

In 1981, Dr. Justino Arboleda, a 35-year-old physician, was assigned to the Bicol region. He was a young doctor with a lot of energy and a lot of ideas. He was a young doctor with a lot of energy and a lot of ideas. He was a young doctor with a lot of energy and a lot of ideas.

Figure 1 displays a 4x4 grid of 16 grayscale images showing the degradation of a handwritten digit '4' over time. The images are arranged in four rows and four columns. The first row shows the original image and three versions with increasing noise. The second row shows the original image and three versions with increasing blur. The third row shows the original image and three versions with increasing motion blur. The fourth row shows the original image and three versions with increasing rotation. The images are labeled with their respective degradation types and levels.

the house.

Philippines loses MCC Asia Pacific's creation capital competition

MANILA, Philippines — The Philippines has lost the competition for the creation capital of the Asia Pacific region to the United States, according to a report by the U.S. State Department. The report, which was released last week, states that the United States has been awarded the title of creation capital for the Asia Pacific region for the next five years. The Philippines, which had been a strong contender, was defeated by the United States. The report also mentions that the Philippines has lost the competition for the creation capital of the Asia Pacific region to the United States, according to a report by the U.S. State Department. The report, which was released last week, states that the United States has been awarded the title of creation capital for the Asia Pacific region for the next five years. The Philippines, which had been a strong contender, was defeated by the United States.

Beekeeping is alternate livelihood for La Union's tobacco farmers

The diagram shows a top-down view of the experimental setup. A subject is seated at a table, looking at a video screen. A camera is positioned above the screen. A target is visible on the screen. The subject's hand is positioned near the target. The diagram illustrates the spatial relationship between the subject, the video screen, the camera, and the target.

100 200 300 400 500

The diagram illustrates the experimental setup for studying the effect of solution concentration on reaction rate. It features a reaction vessel equipped with a stirrer and a thermometer. The reactant is placed in the vessel, and the catalyst is added to initiate the reaction. The concentration of the solution is a key variable, and the rate of the reaction is monitored by measuring the change in reactant concentration over time. The diagram is labeled with various components and variables, including 'Reactant', 'Catalyst', 'Stirrer', 'Thermometer', 'Reaction vessel', 'Concentration of the solution', 'Rate of the reaction', and 'Time'.

Conquer your fear and get that job

Many people are afraid to apply for a job. They think they are not qualified or that they will be rejected. But the truth is, most employers are looking for someone who is willing to learn and grow. Don't let your fears hold you back. Take the first step and send in your resume. You may be surprised by the response.

Ask Your Career Counselor

It's important to talk to a career counselor about your fears. They can help you identify your strengths and weaknesses, and provide you with the tools you need to succeed. Remember, your counselor is on your side and wants to see you succeed.

Don't let your fears hold you back. Take the first step and send in your resume. You may be surprised by the response.

Remember, your counselor is on your side and wants to see you succeed.

Don't let your fears hold you back. Take the first step and send in your resume. You may be surprised by the response.

Remember, your counselor is on your side and wants to see you succeed.

Thanks for the memories

It's time to say goodbye to old friends and colleagues. It's a bittersweet moment, but it's also a chance to reflect on the good times and the lessons learned. Thank them for the memories and wish them the best in their future endeavors.

It's a bittersweet moment, but it's also a chance to reflect on the good times and the lessons learned.

Thank them for the memories and wish them the best in their future endeavors.

$\Delta H_{\text{melt}}^{\circ}$ = 100 J/g; T_g = 78°C; T_m = 169°C; T_i = 170°C.

TABLE I

Properties of the Polymers

The following table lists the properties of the polymers studied. The molecular weights were determined by gel permeation chromatography (GPC) using polystyrene as standards. The inherent viscosities were measured at 30°C in chloroform.

Polymer	Molecular Weight (\bar{M}_w)	Inherent Viscosity (dL/g)
1	12,000	0.85
2	15,000	0.95
3	18,000	1.05
4	22,000	1.15
5	25,000	1.25
6	28,000	1.35
7	32,000	1.45
8	35,000	1.55
9	38,000	1.65
10	42,000	1.75
